Besides the numerous watering places, plain and fashionable, there are dozens of water-cure institutions throughout the Empire, and suffering mankind is crowding all of them. The University of Berlin has recognized the importance of this branch of medicine and has decided upon erecting from October next a special chair for hydrotherapy which will be occupied by Dr. Brieger of Berlin. If the people drink fleurich's beer Washington will not need a cold water cure, because Macrzen, Senate, and Lager Lave all the bealth and qualities that can be produced from malt and hops.
